7. Variances

a. Tabled

- i. **23-04-35 Camelot Inn (Jasper)** — Architect presented with owners. Architect states that owners attempted to make one of the units ADA Accessible. Ramp and parking area quoted as approximately \$24,000 and would require a retaining wall that could present a hazardous situation. Chairman notes that variance from accessibility standards does not invalidate enforcement of the ADA. Proponent acknowledges that a ramp would need to be built should a tenant ask for it. Chairman asked if the

code of record when building was built distinguished between motel and apartment occupancies. Proponent did not know. Ed Rensink notes that if all units are Type B / Adaptable Units as proponent states then Indiana Amendment does not require any Type A units. Application does not specify that all units are Type B. Proponent notes that interiors are adaptable but inaccessible based on difficulty of ramp construction. Commission moved to **table**, giving architect instructions to research 1007.1 on alterations to existing buildings.

Commissioners Heinsman and Cook note that structural report is lacking clarity on the ability of the structure to support the required codes for the intended use, no discussion of lateral wind resistant system capacity. only for residential pools. **Approved with conditions:** (a) approved as submitted, (b) is approved with 5-foot fence for commercial pool. Correct code citation for (b) should be 675 IAC 20-2-26(f).

- xviii. **23-06-34 Imagination Station Fun Zone LLC (North Vernon)** — Proponent is looking to move an indoor playground from a rented building to a bought building. Changing industrial building to A-3 occupancy, sprinkler system required. Calculated occupancy is approximately 1000, only 200 people have been in building. Metal and steel building. Fire department approximately 3 minutes away, professional department staffed 24/7. Proponent notes that they will have a concession area, but that would create an A-2

occupancy that would be limited to under 100 persons and under 5000 square feet, building is twice that size. **Approved with Conditions:** Occupancy 299 posted visible within the space, no food service.
