Positive Staff Cases by County/Funding Type

1878 Positive Cases  
Data as of 2/15/2021

Total COVID-related deaths- 5

## COVID Updates

- Appendix K
- Provider Grants
- Vaccine Updates

# Vaccine Update

- IDOH has announced
  - DSPs are eligible to receive the vaccination and provided a link for those staff to register.
    - If they provide direct in-person care (either medical or personal needs care) in any healthcare setting (in-patient, out-patient, in-home, congregate setting, etc.) then they are eligible.
    - If they are 100% remote, then they are not yet eligible.
    - If they provide other types of services such as employment, food services, etc. (i.e. not medical or personal needs care, then they are **not** eligible.)
  - Individuals 65 or older are now eligible.
  - To register, visit [www.ourshot.in.gov](http://www.ourshot.in.gov)

# Vaccine Update

- For individuals eligible due to their age, DDRS is working with case managers and providers to ensure individuals are aware that they are eligible and assist with registration and/or attending their appointment.
- DDRS is working with IDOH to provide vaccine to individuals living in congregate settings, as they are at high risk.
  - We are working with providers around the state to equip them to administer vaccine and establish vaccine hubs
  - As the hubs are established, we will work with the provider network to get individuals scheduled for their vaccine

# BDDS/BQIS Update

**Cathy Robinson, Director, Bureau of Developmental Disabilities Services**  
**Jessica Harlan York, Director, Bureau of Quality Improvement Services**

# BDDS Gateway
